ACCUSLICE-100PC-1A

High Speed Inline Portioning

FOODTOOLS®
Industry Leaders in Portion Control

ACCUSLICE-100PC-1A

Average Speed:
Up To 1,500 Products Per Hour

Function:
This high-production inline machine is designed to cut pizza, lasagna, or quesadilla at high speed. The model features a single product lane and can be customized to cut round, rectangle, or square products. Change over between products is quick and easy. This machine is great for any production facility cutting a large quantity of frozen pizza, lasagna, or quesadilla products.

Benefits
- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion products every time in a high volume production process
- Slices round, rectangular, or square products
- Accessories and blade sets require minimal change over time to slice new products
- Efficient design to fit in locations with limited space
- Reliable and durable equipment backed by manufacturer's warranty
