

ACCUSLICE-100BC

High Speed Biscotti Slicing

FOODTOOLS
Industry Leaders in Portion Control

ACCUSLICE-100BC

Average Speed:

1,200-1,500 Loaves Per Hour

Function:

This rotary blade biscotti slicing machine uses a row of custom rotary blades to slice a loaf of biscotti into pieces. The blades are built for the individual project and can be designed to meet most any product specifications. The ACCUSLICE-100BC can help bakeries who make a high volume of biscotti and need to cut it quickly and efficiently.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion biscotti loaves every time in a high volume production process
- Reliable and durable equipment backed by manufacturer's warranty
- Multiple blades to cut the entire loaf into slices in one single pass
- Designed to cut several loaves in each cycle
- Remove the need for sharp knives and slow cut by cut process portioning products
- Can be customized to fit specific needs
