Fresh Cake Slicing Machine

FOODTOOLS
Industry Leaders in Portion Control

BT-1

Average Speed:

1-50 Products Per Hour

Function:

The bench top slicing machine from FoodTools is an economical solution for bakeries needing to portion fresh round products. The machine is designed for a table top, making it versatile and easy to add to your production space. A single wire is used to slice the product as it sits on a manually rotating platform. The slicing function is a mechanical lever arm so that no matter who is using the machine the portions are always straight and accurate. This solution is good for bakeries slicing less than 50 products per hour.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time, no matter who is operating the machine
- Small table top design for simplicity
- Reliable and durable equipment backed by manufacturer's warranty
- Great starter machine for bakeries just beginning to portion cakes
