CS-1000

Average Speed:
250-350 Products Per Hour

Function:
This high-speed model is capable of cutting a variety of frozen round products. The machine features fully automatic product positioning, indexing, and Divider Insert feeding. A single operator can double production speed by using two machines simultaneously. Portions will all be a consistent size no matter who is operating the machine. A simple switch can change from cutting with Divider Inserts to cutting without. This machine is best for bakeries producing 200 or more products per hour.

Benefits
- Achieve a return on investment through labor savings and improved portion quality and consistency
- Great machine for bakeries portioning frozen round cakes and pies
- Perfectly portion cakes every time
- High speed automatic slicing helps speed up the portioning process of production
- Reliable and durable equipment backed by manufacturer's warranty
