Round Product Crumb Forming

FoodTools
Industry Leaders in Portion Control

CS-7C

Average Speed:

Up To 400 Products Per Hour

Function:

This crumb spreader disperses and hard-packs a pre-measured amount of virtually any recipe crumb mix consistently in most cake pans and pie tins. This unit can spread crumbs in the pan bottoms only, the bottoms and the side-walls of the pan or pie tin, or at a pre-determined height up the sidewall of the pan. This machine is great for bakeries packing 20 or more crumb crusts per day.

Benefits

- Variable speed from 0 to 163 RPM for various crumb base control
- Achieve a return on investment through labor savings, quality, and consistency
- Perfectly press crumb bases every time no matter who is using the machine
- Custom accessories can spread crumbs on the base only, the base and sides, or even the base and specified height of the sides
- Small and compact design is perfect for locations with limited space
- Reliable and durable equipment backed by manufacturer's warranty
