

TS-1

Tortilla Strip Slicing Machine

FOODTOOLS
Industry Leaders in Portion Control

TS-1

Average Speed:

Up to 60-80 Tortillas per Minute

Function:

This model is an economical machine used to quickly slice tortillas into strips. Tortillas are loaded into the gravity fed machine via the ramp at the top and stainless steel roller cutters slice the strips. The sliced product can drop into a box, tray, bag, or onto a conveyor. This is a great machine for any tortilla or pita production line needing to cut up to 38,000 tortillas per shift.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion tortilla products every time no matter who is slicing
- Portion up to 4750 tortillas per hour
- Virtually eliminate the possibility of returned product due to uneven slices (miss-cuts).
- Small and compact design can be placed on a table and is perfect for locations with limited space
- Reliable and durable equipment backed by manufacturer's warranty
