

TC-5A2

High Speed Tortilla Slicing Line

FOODTOOLS
Industry Leaders in Portion Control

TC-5A2

Average Speed:

Up To 6,000 lbs Per Hour

Function:

This machine model portions stacks of round tortillas at high production speeds in an inline continuous duty tortilla chip portioning system. This is perfect for large-production plants that have a need to slice 8" tortillas into 2-8 portions. The TC-5A2 reliably produces smooth, clean, accurate cuts by utilizing two slicing stations.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Slice up to 6,000 dozen tortilla per shift
- Inline system for high volume, high production facilities
- Inline system allows machine to slice portions while the next product stacks are being loaded in the product holders
- Custom accessories for 2-8 portions
- Accessories can be changed quickly to set up different cut patterns or products
- Reliable and durable equipment backed by manufacturer's warranty
