

ACCUSLICE-100PC1

High Speed Pizza Portioning

FOODTOOLS
Industry Leaders in Portion Control

ACCUSLICE-100PC1

Average Speed:

Up To 1,500 Products Per Hour
1 Product Per Cycle

Function:

This high-production inline machine is designed to cut pizza, lasagna, or quesadilla at high speed. The model features a single product lane and can be customized to cut round, rectangle, or square products. Change over between products is quick and easy. This machine is great for any production facility cutting a large quantity of frozen pizza, lasagna, or quesadilla products.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion products every time in a high volume production process
- Can slice round or square products
- Accessories and blade sets require minimal change over time to slice new products
- Efficient design to fit in locations with limited space
- Reliable and durable equipment backed by manufacturer's warranty
