

CS-10E

Multi-Blade Sheet Slicing

FOODTOOLS
Industry Leaders in Portion Control

CS-10E

Average Speed:

100-150 Products Per Hour

Function:

This high-speed sheet cutting model is perfect for slicing frozen or dry sheet or bar products as well as biscotti loafs. The machine features a blade set cutting both the x and y axis slices in each blade drop. The machine can be fitted to cut in or out of the box/pan and is best for bakeries slicing 100-150 products per hour.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Can be operated efficiently by one operator
- Multiple blades increase cycle speed by making both x and y axis cuts in one pass
- Fast change over from one blade set to another to slice a different product or portion size
- Custom triangle blade sets available to slice unique triangle portions
- Reliable and durable equipment backed by manufacturer's warranty
