ROUND CRUMB BASE

MACHINE	SPEED	PRODUCT	PORTION	FEATURES
CS-7C 	Up To 400 Round Pans Per Hour	6" - 12" Diameter Round Products	Cake & Pie Pans Aluminum & Foil Pans Straight or Angled Sides	This machine uses a rotating base and plow to spin, compress, and pack crumbs into round pans and pie tins. Crumbs can be pressed across the bottom only as well as a predetermined height of the pan sidewalls.
ACCUFORM SERIES 	Up To 40 Round Pans Per Minute	6" - 12" Diameter Round Products	Cake & Pie Pans Aluminum & Foil Pans Straight or Angled Sides	This automated inline crumb spinning machine uses a conveyor, spinner plows, and up to 4 stations to automatically form crumb bases into as many as 40 round pans or tins per minute. 1 to 4 stations are available in each line.

Round Pan Accessories

Custom plows create bottoms only, bottoms and full sides, or bottoms and a predetermined side wall crumb height.

Pie Pan Accessories

Pie crumb bases can be packed using a custom pan holder and angled plow designed for your specific pie tins or pans.
