# 5-W

## CHEESE & DAIRY PORTIONING

The FoodTools Model 5-W is an automatic cheese cutter that slices blocks of butter or cheese into three dimensions. The machine is automated, easy to clean, includes safety features to insure that the operator is always safe. It is designed for full wash down and is durable enough to withstand high production industrial facilities. FoodTools is the leader in dairy production equipment and the 5-W was designed and built to keep up with the demands of a large production facility.

FoodTools machines are manufactured and assembled in the United States of America and supported by a network of international distributors. Specifications and production rates are subject to change and are dependent on the product makeup, temperature, upstream or downstream processing, and additional accessories to standard equipment. Consult FoodTools for accurate throughput rates and portion sizes for your unique products.
