ACCUSLICE-100PC

PIZZA PORTIONING

This commercial pizza cutter is designed to slice pizza, lasagna, or quesadilla at high speed in an in-line production process. The machine features dual product lane holders to cut two products each cycle. It can be customized to cut round, rectangle, or square products and change over between products is quick and easy. The machine is loaded from one side, the products are sliced in the middle and then the products can automatically be offloaded and transitioned to the packaging station. This machine is great for any production facility cutting a large quantity of frozen pizza, lasagna, or quesadilla products at high speed.
