ACCUSLICE-200FS

SHEET PORTIONING

This mass production cake cutting machine is built for high speed inline slicing machine is built to cut various sheet style bakery products. The models use a conveyor surface or in the box/pan holders to cut full sheet products into individual portions. The 200 series features 2 cutting stations to increase production speed. The first cutting station slices the x axis and the product is indexed to the second station to cut the y axis. Bakeries slicing more than 2 full sheets per minute find this machine valuable.
