ACCUSLICE-2100

ROUND PORTIONING

This automatic cake cutter will portion a variety of frozen round products including cheesecakes, layer cakes, ice cream cakes, pies, and more. The user-friendly operation requires no skill to produce consistent size and weight portions at high production speeds. Different product holders are made for different sizes of cakes and changing between product lines is quick and easy. Divider Inserts are deposited between each wedge in one smooth operation for a professional look and feel. Customers who buy this model usually produce 200 to 600 frozen cakes per day.
