ACCUSLICE-300RF

ROUND PORTIONING

This high-production inline machine features three cutting stations with manual product loading. This model includes the option to cut cakes and place Divider Inserts between the slices using roll stock Divider Inserts. Touch screen operation allows one operator to attain cutting speeds up to 12-15 cakes per minute depending on the portion size. The machine has quick-change product holders and can cut various cake diameters. The conveyor is servo driven for accurate positioning. Auto load, servo-driven blades and exit conveyors can be added as options. This machine is best for a high production facility slicing more than 600 cakes per hour.

SPEED

Up To 635 Products Per Hour

PROUDUCT TYPE

Round

PRODUCT TEMPERATURE

Frozen, Chilled, Hard

END USER

Large Commercial Bakeries

PORTIONING TECHNOLOGY

Stainless Steel Blades
