ACCUSONIC-10UTS

SHEET & ROUND PORTIONING

This ultrasonic sheet cutting machine is ideal for sticky, difficult to cut, and delicate products. This model features an ultrasonic blade which vibrates at 20 kHz to prevent product from sticking to the blades, giving each slice a quality appearance. It can be equipped with one, two or three ultrasonic systems to suit your production requirements. The machine is adaptable to cut sheet products, loaf products, or two round products simultaneously. This model features a cleaning system to wash and dry the ultrasonic blades at programmable intervals.

SPEED

Up To 100 Products Per Hour
