ACCUSONIC-10UX

SHEET & ROUND PORTIONING

This ultrasonic slicing machine is perfect for sticky, difficult to cut, and delicate products and can be built with 1, 2 or 3 ultrasonic blades. It is capable of cutting in or out of the box/pan (single blade). Ultrasonic blades vibrate at 20 kHz to prevent the product from sticking to the blade, allowing each slice to have a clean quality look. It can also be used to cut 2 round cakes per cycle with no Divider Inserts. This machine is best for bakeries with hard to slice production volume of 50-100 products per hour.

SPEED

Up To 100 Products Per Hour

PRODUCT TYPE

Full Sheet Or Round

PRODUCT TEMPERATURE

Fresh, Ambient, Sticky

END USER

Medium Size Bakeries

PORTIONING TECHNOLOGY

Ultrasonic Blades
