ACCUSONIC-200RS

ROUND PORTIONING

This ultrasonic round cake cutting machine features two cutting stations with manual load and automatic offload. Touch screen operation allows one operator to attain cutting speeds up to 10 cakes per minute. The machine has quick-change product holders and can cut various cake diameters. Each cutting station has servo-driven ultrasonic blade heads and the conveyor is run by a servo drive for accurate and fast positioning. This machine is best for a high production facility slicing more than 400 cakes per hour. Each machine is built to order, using the specific bakeries requirements to design and deliver a machine custom for the bakery's needs.
