ROUND PORTIONING

**FoodTools®**  
Industry Leaders in Portion Control

# ACCUSONIC-2100

## ROUND PORTIONING

This high-production ultrasonic machine is capable of cutting a variety of round products. The machine features dual product holders and fully automatic product positioning, indexing, and roll fed Divider Inserts. Using Divider Insert rolls improves efficiency by removing the time it takes to refill sheet fed Divider Insert holders during cutting cycles. A simple switch can change from cutting with Divider Inserts to cutting without. The unit also features light curtain safety sensors reducing the cycle time by eliminating opening and closing doors. This machine is best for bakeries producing 300 or more products per hour.

### SPEED

Up To 360 Products Per Hour

### PRODUCT TYPE

Round

### PRODUCT TEMPERATURE

Fresh, Ambient, Sticky

### END USER

Large Commercial Bakeries

### PORTIONING TECHNOLOGY

Ultrasonic Blades

### DIVIDER INSERTS

Roll Feed

### PRODUCT SIZE

6"-12" Dia., Up To 6" Tall

### PORTION SIZE

2-24 Portions

### POWER

Compressed Air 10 CFM @ 90 PSI  
Electric 240V, 50/60Hz, 30A, Single-Ph

### MACHINE DIMENSIONS

43" Long, 38" Wide, 77" Tall
