ROUND PORTIONING

This automatic cake slicer for round cake is capable of cutting a variety of frozen round products including cheesecakes, layer cakes, ice cream cakes, pies, and more. The machine features dual product holders and fully automatic product positioning, indexing, and Divider Insert feeding. Dual product holders eliminate lost time loading and unloading products as the machine is continuously slicing product. A single operator can double production speed by using two machines simultaneously. Portions will all be a consistent size no matter who is operating the machine. A simple switch can change from cutting with Divider Inserts to cutting without. This machine is best for bakeries producing 300 or more products per hour.

SPEED

Up To 450 Products Per Hour

PRODUCT TYPE

Round

PRODUCT TEMPERATURE

Frozen, Chilled, Hard

END USER

Large Commercial Bakeries

PORTIONING TECHNOLOGY

Stainless Steel Blade
