## ROUND PRODUCT FORMING

This crumb base forming machine disperses and hard-packs a pre-measured amount of virtually any recipe crumb mix consistently in most cake pans and pie tins. This unit can spread crumbs in the pan bottoms only, the bottoms and the sidewalls of the pan or pie tin, or at a pre-determined height up the sidewall of the pan with a custom spreader accessory. The crumbs are spread the same every time, so no matter who is operating the machine the cake bases come out consistent. This machine is perfect for bakeries packing 20 or more crumb crusts per day.

### SPEED

Up To 400 Products Per Hour

### PROUDUCT TYPE

Round Crumb Base

### PRODUCT TEMPERATURE

n/a

### END USER

Small Bakeries, Medium Size Bakeries, Large Commercial Bakeries

### PORTIONING TECHNOLOGY
