RPS-100C

SHEET & ROUND PORTIONING

This automatic ultrasonic cake cutter with robotic technology is designed for continuous supplied product to be cut on the belt, in a box, or in a foil container. It is ideal for sticky, difficult to cut products. The machine can cut round, square, rectangles or triangles and is designed to employ ultrasonic cutting systems, servo driven conveyor, and is "wash down" compatible for ease of cleaning and sanitation. The upstream process can be automated by the addition of an auto load conveyor and the downstream process can be automated with an exit conveyor.
